## Justice Tribeni Sahai Misra Biography

Justice Tribeni Sahai Misra was born on 15<sup>th</sup> day of November 1922 as the eldest son in a well known family at Mahona, Lucknow. He studied in Government Jubilee College and passed his Intermediate in Science (with Mathematics). He got married in the year 1940 to Dr. Shakuntala Misra. He completed his Graduation from Allahabad University in 1943. He was imprisoned and kept in Naini Jail during Quit India movement in year 1942. He was kept in a cell along with Late Yashodanandan, a former Judge of Allahabad High Court. He passed his M.A. (English) and L.L.B. together from University of Lucknow in the year 1945. He was a keen sportsman and ace footballer. He was the captain of his badminton and football team. He was a first divisioner throughout and started practice in civil side at Lucknow under Advocate Mohd. Abbasi. Thereafter he left the profession for the time being and gained experience as Company Secretary at Kalyan Mills, Ahmedabad and later on shifted in the same capacity to Mumbai, at Indu Mills.

**Hon'ble Justice T.S. Misra  
(1922-2005)**

In the year 1951 he shifted to Kanpur and started his practice in civil side under Pt. Babu Lal Misra. He was also appointed as a Lecturer in Law at D.A.V. College and thereafter became the Dean - faculty of Law at Kanya Kubj College, Kanpur.

He was appointed as District Government Counsel (D.G.C.) in the year 1964 and was elevated as a Judge of Allahabad High Court in the year 1971. He remained Senior Judge at Lucknow Bench of Allahabad High Court till he was appointed as Chief Justice of Guwahati High Court in 1983. Justice T.S. Misra also functioned as the Governor of Assam and Meghalay. He retired on 14<sup>th</sup> November 1984 as Chief Justice of Guwahati High Court. Justice T.S. Misra also occupied the Chair of Lok Ayukta of Bihar from 1986 to 1991.

After his retirement from active service he spent rest of his happy and peaceful life in Lucknow with his youngest son Shri Satish Chandra Misra. He left for his heavenly abode on 24<sup>th</sup> October 2005 leaving behind his 4 sons and 2 daughters. His eldest son Justice V.C. Misra retired as a Judge of Allahabad High Court. His other two sons Dr. Subodh Chandra Misra and Dr. Amrish Misra are Engineers who graduated from IIT Kanpur and thereafter did their Ph.D. from reputed universities in U.S.A. They are now settled in U.S.A. His youngest son Sri S.C. Misra is a Senior Advocate and Member of Parliament (Rajya Sabha) since 2004. Smt. Asha Tewary and Smt. Abha Agnihotri are the two daughters of Justice Misra. Smt. Asha Tewary is former Member U.P. Human Rights Commission and Smt. Abha Agnihotri is Former Chairman U.P. State Commission for Women.

Justice Misra has left behind a Legacy of successful lawyers. He had three younger brothers. His brother Late Laxmi Narain Misra looked after family agricultural property and was involved in social works. His other brother Late Justice Kailash Nath Misra retired as High Court Judge, Allahabad and his youngest brother Late Rajendra Nath Misra had been D.G.C. Revenue. Besides his sons, his nephews Sri Sudhir Pandey, Sri Upendra Nath Misra and Sri Shivji Shukla are successful practicing Senior Lawyer's of Allahabad High Court. His grand son Kapil Misra is also a Practicing Lawyer of High Court and Supreme Court.

## Dr. Shakuntala Misra Biography

Dr. Shakuntala Misra was born in Kanpur in the year 1924 in a well known family.

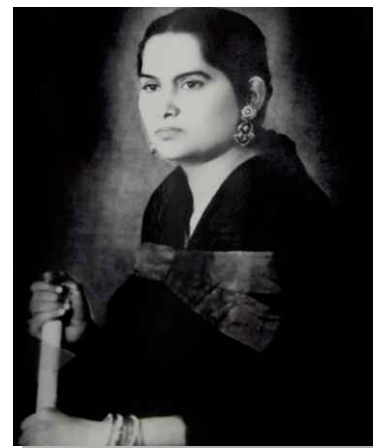

During her childhood she often spent her vacations in her native village which made her aware of the joys, sorrows and difficulties faced by the villagers. This inspired her to work for them since her childhood. She was specially touched by the plight of the marginalized sections of the society and was saddened to see children getting deprived of education because of their caste or being differentially abled.

She was a keen learner and pursued her scholarly interest by qualifying M.A. and B.T. by her own means. She pursued her education so that she may impart knowledge to the deprived children by providing free education, books and food. Not only this, she made arrangements for poor students to achieve professional and technical education so that they could lead their life independently and with dignity.

She was also concerned about health issues of the underprivileged which motivated her to obtain degree in Homoeopathic and Ayurvedic Medicine. Thereafter, she opened a charitable hospital in Kanpur where treatment and medicines were given free of cost to the needy. She was very kind hearted and was always keen to serve the society.

She helped people untiringly, so that they could get rid of their challenging conditions and become active member of the society . She believed in spending time and money for helping the poor people, so that they become self-sufficient by developing relevant skills to sustain themselves.

Although, she left this world in 1991 for her heavenly abode but her idles, kind heartedness and working tirelessly for others will keep inspiring us forever. Acknowledging her hard work, especially for the differently abaled, State Govt. of U.P. in the year 2008 established Dr. Shakuntala Misra National Rehabilitation University at Mohan Road, Lucknow, where best education is provide with world class facilities for the differently abled.

**Dr. Shakuntala Misra**  
(1924-1991)

# Patron's Message

I am grateful to almighty and my Parents for giving us an opportunity to serve the needy people of the society in health sector through a Charitable Hospital having world Class Infrastructure and all types of Medical facilities, at almost negligible costs to the patients.

T.S.Misra Hospital and Medical College and Dr. Shakuntala Misra Blood Bank equipped with latest machines and expert technicians and doctors, have been established in the name of my late beloved father and mother to achieve the above objectives as both of them throughout their life had struggled and worked for the upliftment of the have-nots of the society.

I am happy to note that the entire management and staff are working relentlessly to fulfill the above dreams and to ensure that the best of facilities are available in the hospital, college and the hostels. The management has ensured to have the best and most experienced faculty members so that the students get the best possible education and become renowned doctors in their field.

I wish all the success to the management, staff, faculty and all doctors working in the Hospital and hope they will very soon achieve their aim to see that this college develops further and becomes a University of its own.

(Satish Chandra Misra)  
Sr. Advocate & M.P. (Rajya Sabha)

# Chairperson's Message

Medical Education in our province and as a whole in our country needs utmost attention & up-liftment to provide educated doctors to treat ailments in every strata of society in each corner of our country.

Besides there being Central & State Medical Colleges of Government, need was also felt to open Medical Institute of great repute in private sector. South India took the initiative and good Medical Colleges were opened in Maharashtra, Tamil Nadu, Karnataka, Gujrat, Andhra Pradesh etc. in the vivacity of 1980-90 onwards.

In U.P. after 1990 few private Medical Colleges were brought under the umbrella of M.C.I., New Delhi. In that series, we also selected an area amalgamating urban & rural population to open a Medical Institute at Amausi, Lucknow which may be at par with all India Institute of Medical Sciences or even better than that.

T.S.Misra Medical College & Hospital is situated adjoining Amausi Railway station and opposite Amausi Airport, very easily approachable from city and village areas. It is fully in running condition and imparting treatment to patients both OPD and Indoor Patients almost on negligible costs. We were given permission to start Medical Education to 150 students by Government of India after approval from M.C.I. in the year 2015. It is spread over more than 50 acres area. We are happy that now TSM has become a super speciality Hospital with all modern facilities but still within reach of common man.

I need the blessings & good wishes of everyone for the prosperity of this institution and its elevation as a Medical University in near future.

(Kalpna Misra)  
Chairperson

# Principal's Message

It is indeed my proud privilege to write a message from the desk of Principal and Dean of T.S. Misra Medical College and Hospital. After serving for more than 32 years in the Indian Army at various appointments as a teacher, I have been entrusted this present responsibility.

Our institution has started with the vision and ethos of providing best medical education in the country and to treat and care for all strata of the society especially economically under privileged and rural population. Our team of skilled doctors and dedicated paramedical staff are working tirelessly to achieve this goal. We have many clinicians who have international publications to their credit.

The first batch of MBBS had been inducted in 2016-17. With such a dedicated and skilled group of teachers, I have no doubt that this cradle of medical education will keep providing best doctors to serve the nation and the world in the years to come.

We are ably backed and guided by our visionary Patron Chairperson and enthusiastic Group of Directors. Their modern outlook and futuristic vision is providing impetus to the rapid growth of this organisation and adding new dimensions to make this institution a deemed university and a medical hub in future.

I am sure in the near future this institution will be a milestone in the field of medical education and patient care.

Prof. (Brig.) R. K. Shrivastava  
Principal/Dean  
T.S. Misra Medical College

# Vice Chairman's Message

I feel proud to give a message for Brochure of T.S.Misra Medical College and Hospital, situated next to Amausi Railway Station, Lucknow.

T.S.Misra Medical College and Hospital is in the name of my grandfather Late Justice Tribeni Sahai Misra and I am grateful to Almighty God that I have been given the opportunity to serve the same as Vice Chairman of the Management Board of the college. My late grandfather retired as Chief Justice, Guwahati High Court. He dedicated his entire life for alleviation of human sufferings and ailments particularly of poor strata of society and he taught the same lessons to our parents and to his grand children since our childhood.

In this context an initiative has been taken by our family under the able guidance of my father Shri Satish Chandra Misra, former Chairman, Bar Council of U.P., former Advocate General, UP, former Cabinet Minister, UP Government and presently a sitting Member of Parliament (Rajya Sabha) since July, 2004 to open T.S.Misra Medical College and Hospital, with the sole intention to serve the needy and to give best possible medical education so as to fill up the gap by good and dedicated doctors. The faculty comprises of Eminent medical professors and practitioners. Principal/Dean of the college Prof. (Brig.) R. K. Shrivastava who has got more than 32 years of experience in the field of Medical Teaching, Research, Treatment and Administration. We have got an eminent Surgeon who is our Medical Director Dr.R.S.Dubey and who has more than 44 years of experience in provincial medical services including as Director, Lohia Hospital, Lucknow to look-after patient's care.

In view of above, I am confident that our Medical Institute will produce highly trained Doctors and good human beings to serve and treat the ailing patients with full dedication, sincerity, sympathy and on low cost, especially to poor.

I seek blessings of all so that this institution may flourish and become into a Multi-Speciality Hospital and eminent Medical University in near future.

(Kapil Misra)  
Vice Chairman

# Nursing Director's Message

It is an honour to be associated with T.S. Misra College of Nursing & Paramedical Sciences. Out of all careers in medicine, nursing and paramedical sciences are one of the most demanding, yet noble and rewarding careers that a person can pursue in his or her lifetime.

Helping a patient recover from his ailments and assisting him in maintaining his health is an experience that demands a lot from the practitioner, but is ultimately most satisfying.

T.S. Misra College of Nursing & Paramedical Sciences was built to educate young students that are striving to achieve excellence in this field and also to nurture them into successful practitioners within India and abroad. We wish to stay abreast of fast paced developments in health care and at the same time focus on a learn-by-doing approach.

At T.S. Misra College of Nursing & Paramedical Sciences, we have started our journey to bring together the very best in management, staff, students and facilities.

I hope you will join us in this journey. Good luck !

(Praniti Misra)  
Nursing College Director

# Medical Director's Message

On behalf of T. S. Misra Medical College & Hospital Amausi, Lucknow, I extend my warm greetings. With over 44 years of my life spent in the public health sector, I can confidently say that careers in medical sciences are one of the most challenging yet noble and rewarding careers that a person can pursue in his or her lifetime. My life experience also leads me to believe that successful doctors and researchers aren't just people with deep technical expertise but also those that display the finest traits in human beings —ethics, compassion and selflessness.

T. S. Misra Medical College & Hospital is built with this vision in mind. We wish to groom promising students of today into successful practitioners of tomorrow. We wish to impart not just the finest technical expertise but we also want to motivate students to yield this expertise for the greater good cause and for the service of humanity. Whether you are an aspiring doctor or a Bio Medical researcher, TSM's academic faculty and super speciality hospital facilities will arm you with the skills needed to spread your wings in India and abroad.

I hope that we will join together in this journey and take determined steps towards a bright future. Though, it will not be easy, but we all will work at every step in this journey.

(Dr. R.S. Dubey)  
Medical Director

# Director's Message

It is my great pleasure to me in giving a message for the well being of an Institution which has been established in the name & memory of my beloved Grandfather Late Tribeni Sahai Misra, who dedicated his whole life for services of human beings particularly of poor strata.

Being a Doctor, I take pride to appreciate the faculty and infrastructure of T.S.Misra Medical College and Hospital, Lucknow which is comprised of highly experienced medical teachers both from Medical Institutions and Army Medical Core, who are imparting education in our institution with full enthusiasm and sincerity.

By having an eminent faculty and very good modern infrastructure, main objective of the institution has been achieved to a great extent which is to impart best medical education and to treat the ailing patients with latest know how on lower cost and to give proper attention on priority to poor and needy patients. I do hope that in the near future under guidance of the dynamic personalities, our institution which has all super speciality facilities will not only become super specialty PG Institute but will also become as Deemed Medical University.

I do promise that as a Specialist Doctor in Dermatology and in the capacity of one of the Directors of the Management Board, I will also serve this institution with the best of my capabilities.

I pray Almighty God to shower his blessings on us to achieve our future endeavours.

(Dr. Shubhshree Misra)  
Director

Being a developing nation, health and hygiene are mainstays in terms of national priority. With so many people living below the poverty line, statistics reveal that unhealthy living conditions will lead to disease and epidemics, unless a proactive approach by the medical community is put into action.

Keeping these in mind, T.S. Misra Medical College and Hospital has been established; which envisions an ambience of excellence, inspiring value based education, research and development. It has already established a multi speciality hospital with all ultra modern facilities and equipments.

At TSM, our goal is to prepare our students to be global leaders in all aspects of health care delivery. The noble profession of medicine has considerable demands & immeasurable rewards. We are pleased that you have chosen to associate with us in this journey towards the calling of medicine. Our goal is not simply to create “doctors” but “medical scholars” imbued with a lifelong desire for knowledge & service to serve our nation.

### VISION

To lead the evolution of healthcare services and enable every member of the society to enjoy a better and healthier life. We seek to be a witness of the medical reforms through excellence in education, service and research.

We aspire to produce medical graduates with world-class competence

Our aim is to emerge as a leading public healthcare service provider in the country.

### MISSION

In the delivery of healthcare services, we provide a culture of care, while pursuing our commitment to professional excellence. Our primary concern is to develop through education & training and to gain knowledge of the fundamentals of health and disease at improving interventions available or in optimizing the usage of resources.

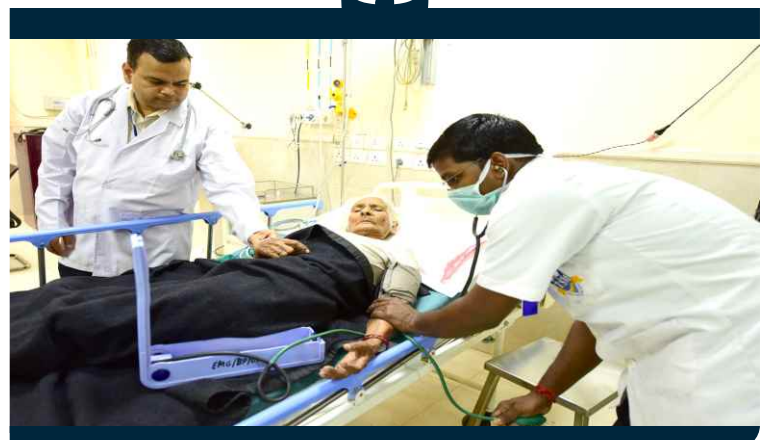

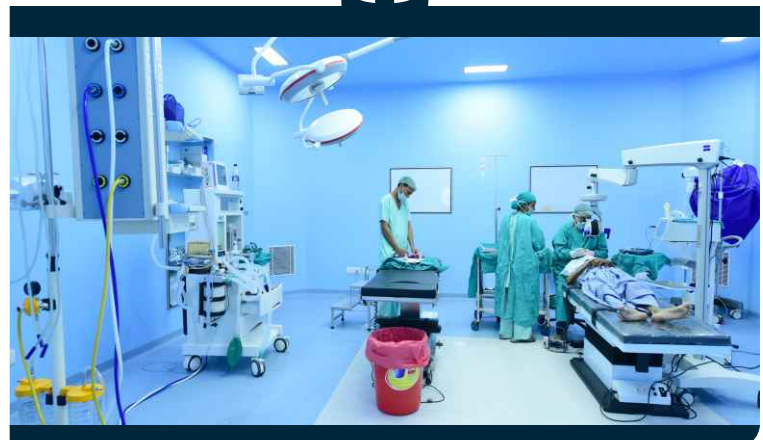

## ABOUT

T.S. Misra medical college and hospital is committed towards improving medical care services to make them more efficient and responsive. We are committed to providing high quality affordable and accessible, preventive, curative, promotive and comprehensive healthcare services to the community as a whole.

Meeting the challenges of an ever changing healthcare environment, T.S. Misra medical college & hospital provides a broad spectrum of wellness offerings equipped with the latest technologies and infrastructure supported by an experienced team of doctors and medical practitioners.

We have a super speciality hospital run by Vedic and Futuristic Edutech with most ultra and modern facilities.

The institute and hospital was established in the year 2015. We bring together a dedicated team of healthcare professionals to provide the highest standards of healthcare services. Our full range of primary & specialty care medical services enables cross-specialty consultation which assures outstanding treatment for each patient. We offer comprehensive medical solutions comparable to the best medical facilities in the world. We deliver finest healthcare and ensure our team facilitates the best treatment.

## • NABH

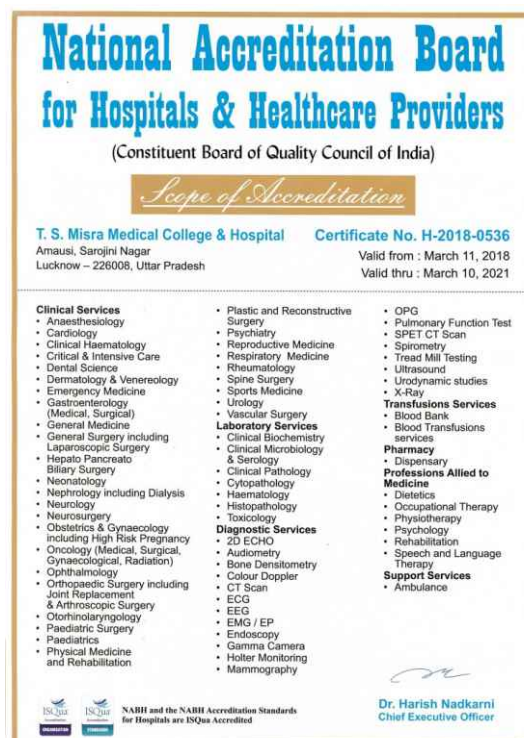

TSM Medical College and Hospital is a multi-award-winning College, with a national reputation for excellence in the medical field.

One of the biggest achievements has been the successful accreditation of NABH standard for our hospital. National Accreditation Board for Hospitals & Healthcare Providers (NABH) is a constituent board of Quality Council of India, set up to establish and operate accreditation programme for healthcare organisations.

The board is structured to set benchmarks for progress of health industry and improve the quality of healthcare service in our country.

Having NABH accreditation certifies that a hospital setting meets global standards and provides world class healthcare services. **T.S. Misra Medical College and Hospital is the first and only private medical college and hospital in the state of Uttar Pradesh to get NABH accreditation.**

Achieving accreditation has brought an improved level of community confidence and trust, safety and quality into focus, and a comprehensive roadmap for standardization, and also helped to promote a culture that is patient centered, system oriented and one of continuous learning.

## BEST UPCOMING MEDICAL COLLEGE & HOSPITAL

T.S. Misra Medical College is already among the premier medical institutes of the country, within a span of just two years, since its establishment. It is a matter of immense pride and delight for this college to have won the award for the **BEST UPCOMING PRIVATE MEDICAL COLLEGE AND HOSPITAL** in the state of Uttar Pradesh; at the Health Icon Awards 2017. The award function was held at King George's Medical University, Lucknow to recognise and honour doctors and healthcare professionals for excellence in the medical field. The award was presented by Dr. Rita Bahuguna Joshi, cabinet minister of Uttar Pradesh Government.

### 24 x 7 EMERGENCY SERVICES :

- The casualty department functions round the clock on all days.
- Casualty Medical officers and resident Doctors are available 24 hrs all days.
- Duty Doctors are available on call round the clock in all specialties.
- In serious cases, priority is given to treatment rather than paper work like registration and medico-legal case formalities. The decision rests with the treating doctor.
- Emergency operation theatre is always maintained on stand-by.

### 24 x 7 AMBULANCE SERVICES :

- The hospital has a fleet of fully equipped ambulances. We have the latest ACLS (Advanced Cardiac Life Support) & BLS (Basic Life Support) Ambulance for critical care transport.
- A team of trained and dedicated medical professionals, Emergency Technicians, Nursing personnel and trained drivers are always ready to handle all eventualities round the clock.
- The Ambulance service is available for transportation of patients to TSM Hospital and Medical College. This facility is available 24 hours a day, on all days.

## OUT PATIENT DEPARTMENTS:

- TSM offers OPD services such as consultation, day care treatment, investigation, referral, admission and post discharge follow up.
- Timings for OPD consultation are from 9am - 4pm.
- We provide OPD services not only for treatment but also for preventive and promotive services like, health checkup, Immunisation, Physiotherapy and so on.
- Every outpatient seeking treatment at the hospital is registered prior to the consultation.
- A case sheet is prepared for recording history, symptoms, diagnosis and treatment being provided.
- TSM also uses the latest software of HIS (Hospital Information System) to help track patient history and maintain patient's medical records. With automation, all departments are inter connected. Faster information access improves quality of patient care.

## IN PATIENT DEPARTMENT :

- TSM provides 700+ beds in the IPD for patients who need medical care and monitoring for more than a day.
- We have a variety of options for accommodation of patients, relatives and caregivers.
- GENERAL WARDS : These are spread across 5 floors for each department. All wards have dedicated nursing stations, free patient food facility, 24 hour security guards and CCTV surveillance
- PRIVATE WARDS : Our hospital offers spacious and comfortable private wards with multi-bed and even single bed options per room. Amenities such as wardrobe, television, sofa-bed (for patient attendant), private bathroom etc. are available.
- We have twin bed and single bed private wards which are located on 3rd floor. Our newly made private wards in DELUXE and SUPERIOR (Single and twin beds) are available on other floors.

## **PATHOLOGY :**

- TSM's diagnostic laboratories are equipped with the latest automated “state of the art” equipments to ensure quality diagnostic services.
- We provide fast turn around time, accurate analysis and complete quality assurance for effective medical care at affordable cost.
- Reliability and promptness of laboratory results is ensured as tests are done by automatic machines by Expert Doctors.
- Reports are made available within the shortest possible time, same day/next day morning.

## **BLOOD BANK:**

- A licensed blood bank is available in the hospital to cater to the requirements of the patients
- All blood is first tested for HIV, HBV and HCV, VDRL.
- Open for 24 hours and caters to external request also.

## **24x7 PHARMACY :**

- Medicines and surgical consumables required for the treatment can be procured from the in-house pharmacy. A general

pharmacy is located in the hospital lobby which functions 24 hourly throughout a week.

- The Hospital pharmacy provides prescription drugs, among other products. We deliver high quality products, services and communication at reasonable price.

## **TPA AND CASHLESS FACILITY:**

- The concept of TPA (THIRD PARTY ADMINISTRATOR) has been introduced by IRDA (Insurance Regulatory and Development Authority)
- TPA department at TS Misra Medical College and Hospital maintains database of the various health Insurance companies for cashless settlement for its patients.
- A formal recognition of TS Misra Medical College and Hospital as a preferred healthcare destination, provides employees of empaneled businesses access to quality healthcare with minimal formalities during admission, and lesser

financial burden.

- TS Misra Medical College and Hospital is the first medical college and hospital in the State of Uttar Pradesh to also have CGHS (Central Government Health Scheme) empanelment for its patients.

### AYUSHMAN BHARAT :

TSM Hospital is empanelled with National Health Protection Scheme - " Ayushman Bharat Yojana ", providing a coverage of upto Rs. 5 Lakhs per family \* per year. The scheme aims at making interventions in primary, secondary and tertiary care systems; covering both preventive and promotive health in order to address healthcare holistically in the country. The beneficiary covered under the scheme is entitled to take cashless benefits from our hospital. We are one of the leading service providers of Ayushman scheme in Uttar Pradesh. We have a dedicated team serving people covered under this Scheme. The hospital lobby has a separate counter for Ayushman patients at the registration desk, to assist patients and coordinate with beneficiaries and the hospital. We also provide free registration to patients who want to enroll themselves under this scheme.

### RADIO DIAGNOSIS :

- The department of Radiology consists of latest equipment and managed by qualified doctors.
- It offers 24-hour's emergency services. We have the following facilities :
  - X-Ray 500 ma and 800 ma
  - Ultrasound I EEG / ECG / 2-D Echo
  - CT Scan

## OPERATION THEATRES :

- Our operation theatres have state-of-the-art facilities designed for optimal efficiency, and facilitate a seamless operational flow for performing complex surgical operations.
- We have 15 operation theatres available. Each operating theatre is equipped with sophisticated equipment from positive pressure rooms and ceiling-mounted equipment units to the latest advancements in surgical technology for performance at the highest level.
- In OT we have well trained nurses to assist in latest endoscopic / laparoscopic surgeries.
- Strict aseptic precautions and sterile atmosphere is monitored in all theatres with continuous airflow filtered by HEPA (High Efficiency Particulate Air) filters.
- Two fully equipped Auto Clave Units with latest machines.

## DIALYSIS :

- This is the process of removing waste products and excess fluid from the body. Dialysis is necessary when the kidneys are not able to adequately filter the blood.
- Dialysis allows patients with kidney failure a chance to live productive lives.
- There are two types of dialysis: hemodialysis and peritoneal dialysis. Each type of dialysis has its own advantages and disadvantages. Patients can usually choose the type of long term dialysis that best matches their needs.
- Dialysis helps the body by performing the functions of failed kidneys.
- It is the kidney's job to regulate fluid balance by adjusting urine output. For that very purpose here at TSM we have 20 no. of dialysis machines to provide healthcare to people requiring dialysis.

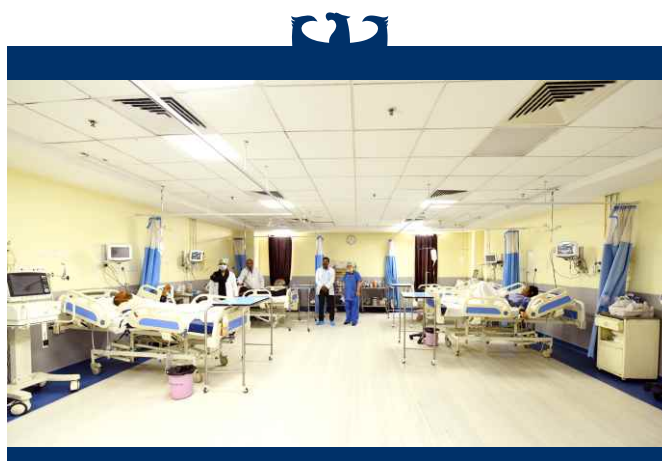

## CRITICAL CARE UNITS :

- The Critical Care Units at TSM are multidisciplinary units with 44+ beds, which cater critically ill patients, the spectrum of which varies from Acute Medical & Surgical illnesses of different specialties to immediate post operative care.
- Our ICUs are fully equipped with a multitude of dialysis units and ventilators. It aims to provide comprehensive care to all patients at affordable prices without compromising in quality of care.
- Our nursing staff and ancillary professionals are dedicated to the intensive care of our patients.
- We have the following types of ICUs:

ICU / ICCU, NICU / PICU, SICU, Ventilator

### LECTURE THEATRES

T.S. Misra Medical College and Hospital has state-of-the-art Lecture Theatres with a capacity to accommodate upto 250 students. It is spacious and well furnished. Modern Teaching aids such as Audio visual aids including touch screen smart board, LCD Projectors, stylus etc are available. T.S. Misra Medical College and Hospital has four such Lecture Theatres in college building & one Lecture Theatre in hospital building for 250 students presently.

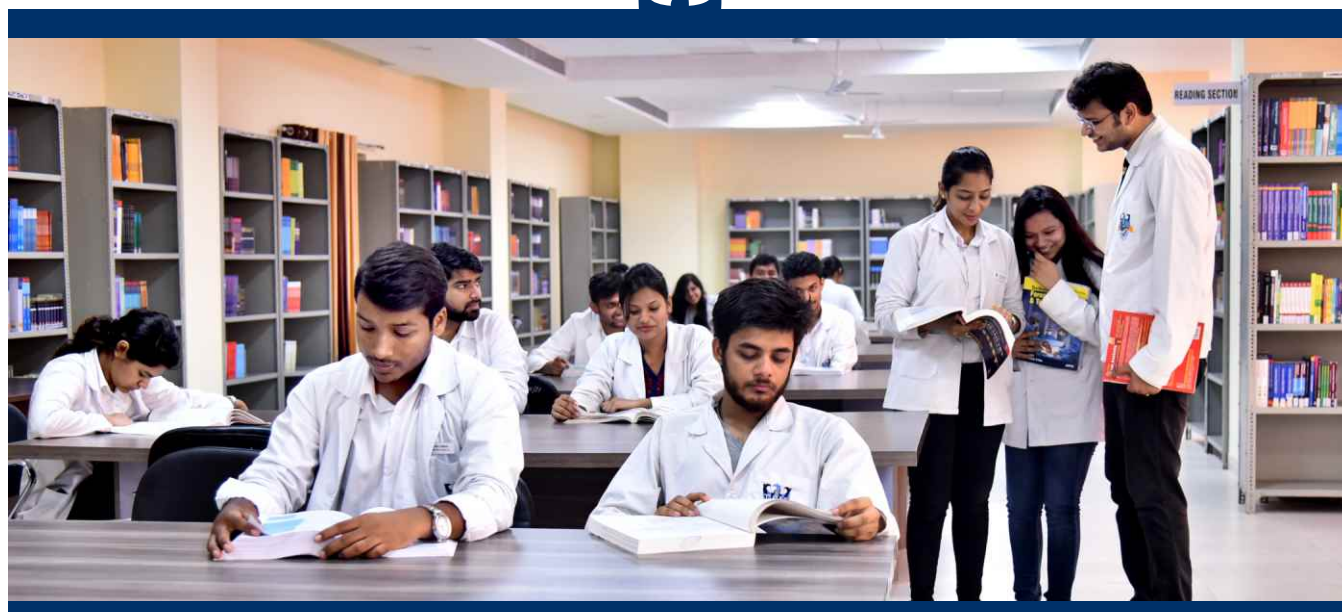

## CENTRAL LIBRARY

The library at T.S Misra Medical College has a total area of 2400 sq metres, with a capacity of seating 300 students. There are a total of 7000 books and 60 indexed national and international journals. Computer sets are also available for the students for online research and study in the central library. There is also a separate study room and demo room with projector for presentations and discussions. In addition, there is a library in each department in the college, containing books and journals of the concerned subjects.

## CAFETERIA

On campus food and catering is available in-house in the college cafeteria, offering a wide selection of dishes and beverages to choose from. It is a popular hang-out spot for students. There is a big canteen of more than 500 capacity in the college campus. Facilities of snacks and food of good quality are provided on subsidised rates to all, maintaining full hygiene & sanitation.

## LABS

Students Labs at the Medical College are well equipped with all modern technology & facilities with a capacity to have more than 150 students. The labs have work stations with running water, electrical and gas connections. Anatomy, Physiology, Biochemistry, Microbiology, Pharmacology Labs in the Medical College give an opportunity to the students to carry out experimental practicals.

The labs also have separate demonstration rooms which are equipped with all modern facilities like strip chairs, Over-head Projector, Slide Projector, Television, Video and other audio-visual aids.

The specimens in the Museums provide immensely useful information for the students and so do the labs where the students conduct experiments. The College lays enough stress on upgrading the specimen collection in the Museums and Laboratories regularly.

The departmental museum at TSM has been meticulously designed and set up, and is one of the best and biggest of its kind in the state. It houses a vast collection of well-preserved specimens and objects of academic interest for students; in the form of mounted specimens, dry specimens, models, plates, charts etc. for research and study purposes.

There are eight Departmental Museums in the college - Anatomy, Pathology, Microbiology, Pharmacology, Forensic Medicine, Community Medicine, General Surgery, Obstetrics and Gynaecology.

The catalogue system in museum is maintained according to MCI criteria. Provision for preparing specimens and models to add to the departments are available in the museum.

## Features of the System:

- Blood Donation Camp & Camp Organiser Management.
- Donor Registration, Managing donor database, recording their physical and medical statistics.
- Inventory management in blood bank for storage and issuance of blood.
- Blood Donation area- 2 beds for whole blood donation.
- Donor counselling and motivation.
- Testing of infections such as HIV, Hepatitis B&C, Malaria, Syphilis
- Blood grouping of donors and patients.
- Quality control of blood components.
- Component separation into PRBC, FFP, RDP.
- Diagnostic tests- DCT, ICT.
- Cross matching of blood.
- Refrigerator Wise Stock Position and Printing of Refrigerator Stickers.

## IMPORTANT EQUIPMENTS

- |                                       |                           |                                 |

| • Donor couch with complete fittings  | • Hot air oven            | • Incubator                     |
| • Cylinder O <sub>2</sub> -1246 litre | • Centrifuge              | • Gel card centrifuge           |
| • Gel card incubator                  | • Refrigerated centrifuge | • Centrifuge bucket equalizer   |
| • Cell Counter                        | • Deep freeze- 80         | • Deep freeze- 40               |
| • Blood bank refrigerator             | • VDRL rotor and shaker   | • ELISA washer and ELISA reader |
| • Cryoprecipitate Bath                | • Plasma expresser        | • Cell counter                  |
| • Platelet agitator                   |                           |                                 |
| • Coagulometer                        |                           |                                 |

T.S. Misra Medical College and Hospital offers a supportive and caring campus environment for students to develop socially, physically, intellectually, and spiritually. The college has a broad range of options for leadership growth, social activities, and community involvement while providing for students' housing, health, and safety.

At TSM, students take their academic pursuits seriously, but at the same time they'll be the first to tell you that they are passionate about life outside of the lectures and labs. We encourage our students to participate in a number of co-curricular activities all year round. Such activities help the students to get a break from their study schedules and showcase their talents, and also helps to interact with other students and make friends.

On weekends you can find students studying together in the common rooms, playing sports in the college fields, grabbing coffee in the college cafeteria or simply strolling/relaxing in the campus lawns.

Separate boarding hostels are available for boys and girls. The rooms in the hostels are 3BHK flats. Each flat is fully furnished, and shared by 3 students; with individual single bed rooms for each and a common room and pantry.

A common re-creation room is located on the ground floor of each hostel, having television and indoor games like carom, table tennis, chess etc.

Water coolers, Mess, housekeeping, in-house laundry and dry cleaning and high speed wifi services are also available. The hostels are under 24x7 CCTV surveillance.

The campus has hostel accommodation not only for students, but also junior and senior residents and nursing staff of the hospital.

### GYMNASIUM

To encourage fitness among students, both girls' and boys' hostels have separate well-equipped gyms with cardio as well as weight training facilities.

### PARLOUR AND SALON:

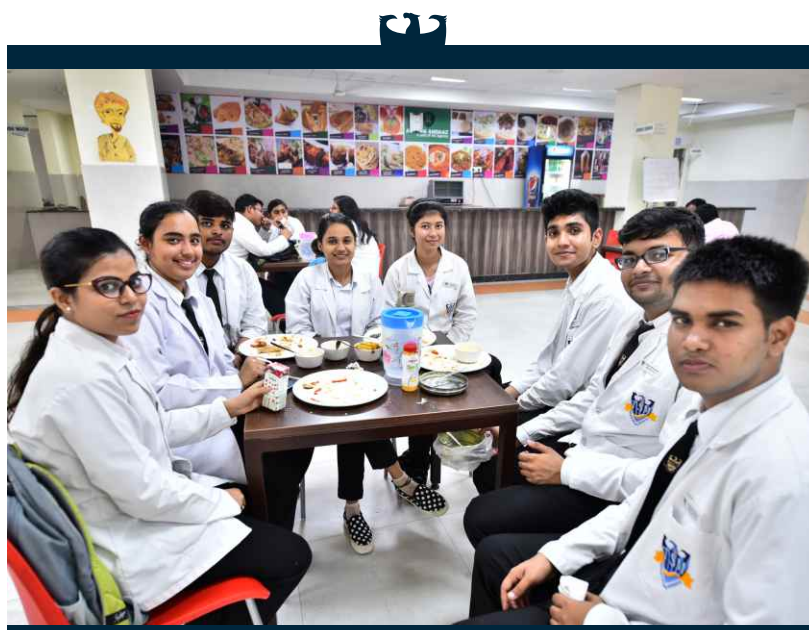

With separate salon and parlour services available in each hostel at TSM Medical College campus, you can enjoy professional high-quality hair and beauty services at extremely competitive prices.

## MESS

The hostel premises comprise of separate dining facility in the Boys' and Girls' hostels. We have a multi-floor Mess for the boys with a modern kitchen, which caters for more than 400 students. The Girls Hostel also has a separate dining hall and well equipped kitchen. The mess provides the students with breakfast, lunch, evening snacks and dinner; and both vegetarian and non-vegetarian options are available. It is ensured that the food served is hygienic, nutritious and tasty to meet the student's requirements. The college management staff eats the same food to check and maintain the food quality standard.

## RECREATION ROOM

A separate recreation room is located in each of the hostels, to help the students relax and unwind at the end of the day. Equipped with a television set for students to watch in their leisure time, the room also has newspapers and magazines for reading and indoor games such as table tennis, carrom, chess etc. for students to play.

## SPORTS

The ample grounds in the college provide opportunities for sports and other recreational activities to the students. We have cricket and football fields, basketball, volleyball, tennis and badminton courts in our campus to encourage sports and outdoor activities among students.

TSM also organises an annual "Sports Week" inviting students from all batches to participate in various sports activities and showcase their talent.

**DR. LOKESH AGARWAL : 8940542581**  
**DR. PRACHI SRIVASTAVA : 9838265912**

At TSM, we believe that cultural awareness and participation play an integral role in a student's education. This is why we try to engage our students in various co-curricular activities; to provide opportunities for them to get involved, have fun, showcase their talents, and compete against each other in a variety of competitions.

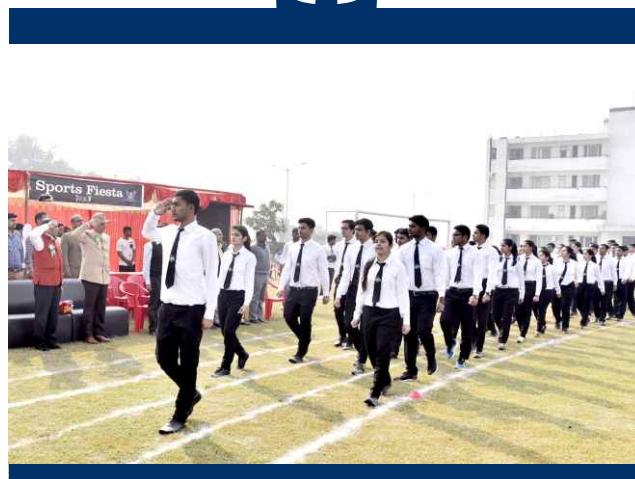

Our cultural programme has the following aims:

- To give all students the opportunity to be involved in culturally enriching activities.
- To give those students with special talents a chance to extend themselves and to grow in their area of expertise.
- To expand students' appreciation of cultural activities and give them an opportunity to come together, connect and learn.

## ANNUAL FEST

Every year, TSM hosts an annual week-long cultural fest for its students; with various sports and cultural activities ranging from sports, academics, drama, art and craft, music and dance. College-wide participation at any skill level is encouraged. The fest begins with competitions between various teams; and on the last day is followed by a cultural evening and prize distribution ceremony for the winners.

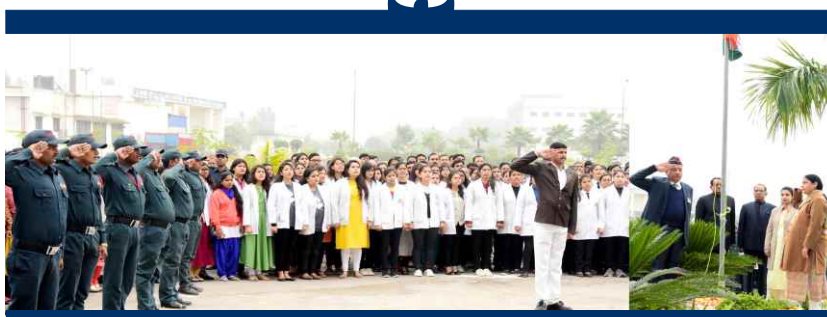

## ORIENTATION DAY

Each year, we welcome our new batch of students along with their parents with an orientation ceremony organised in the auditorium followed by an evening dinner.

## NATIONAL DAY CELEBRATIONS

At TSM, we celebrate Republic Day and Independence Day each year with fervour by conducting a function with flag hoisting ceremony and various activities.

## GUEST LECTURES

From time to time, TSM organizes guest lectures for its students by experts from various fields, from India and abroad to encourage better learning for its students.

Right - Guest lecture by Dr. Pratima Mishra, M.D. Pediatric Endocrinology from the U.S.A. She has been in practice for over 20 years and currently works at Kaiser Permanente Santa Clara Medical Center, California.

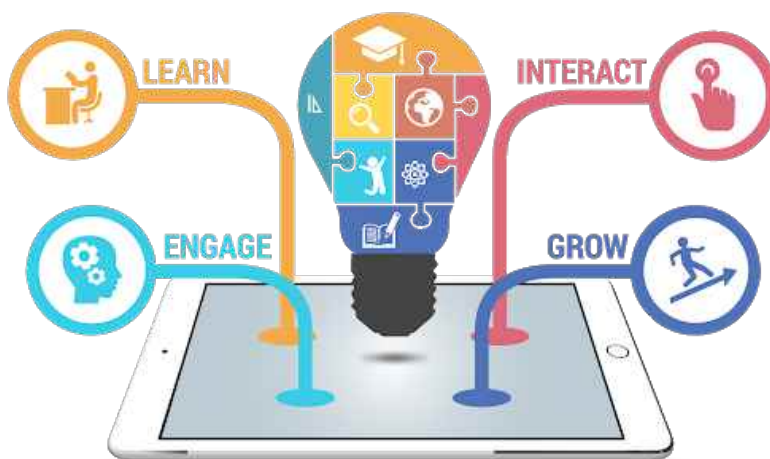

T.S.Misra Medical College, believes in adopting the latest in technology to enable better facilities for the students. TSM has its own app that students and parents can download to stay in touch with the college activities.

This has been made possible by adopting the Extramarks Total Learning Ecosystem, which is a One-App-One-Solution for all stakeholders – College, Teachers, Parents and Students.

This TSM app allows students to access the curriculum-mapped learning solutions at home while simultaneously providing notifications to the parents and teachers to track, monitor, and evaluate the student's performance.

Parents and students can download the TSM app to stay up-to-date and get notifications from the college about class study schedules, time-table, e-homework/assignments, attendance, fees, library reminders, examination schedules and also prior information about school events and holidays. They can have access to self-performance, reports and trends, and at the same time stay connected with the lecturer/professor for enhanced yet engaged independent Learning. This also helps to facilitate group projects and assignments between students.

### SOLAR

Underlining its commitment to drive the adoption of eco-friendly measures and renewable energy systems, TSM has its own solar power plant to generate electricity for both the hospital and college buildings. It is one of the biggest solar power plants in the state.

The installation is generating more than 9 Lakh kWh of electricity every year which significantly brings down the institute's carbon footprint.

By making the campus more environmentally friendly and by engaging in and learning more about sustainable practices, we have taken steps to ensure that the campus and the greater world in which we live will be cleaner, healthier, and more livable tomorrow than today.

TSM also has an exhaustive rain water harvesting system, with around 30 water harvesting pits. This enables to recharge the rainwater in large scale in the area to improve groundwater scenario and thus promote water conservation.

TSM has a state-of-the-art technology for sewage water and affluent water treatment with the objective of zero waste discharge.

TSM is actively involved and committed to working towards the welfare of society in various ways. The scope of our social work is varied in serving people young and old, from every walk of life, in a number of settings such as hospitals, schools, neighborhoods and community organizations.

## DR SHAKUNTALA MISRA NATIONAL BLIND CRICKET TOURNAMENT :

Every year TSM actively hosts and participates in the annual inter-state Blind Cricket Tournament organised by Dr Shakuntala Misra Seva Sansthan. The cricket matches between the teams of 10 states are held in the cricket grounds in our campus including national and international players of our country. It is usually a 5 day Tournament that is followed by a cultural evening and prize distribution ceremony on the last day. TSM extends all possible services to all the players

Winners Team Bihar

## RURAL HEALTH CAMPS :

As a part of our efforts to make basic healthcare accessible to all, TSM organises free health camps in villages and other rural areas, Our Team of TSM doctors, nurses and students help the people by giving free health check-ups and medicines treatments. and also by bringing awareness about health issues.

## FREE HEALTH CHECK-UP CAMPS :

Weekly free health check-up camps are also held in the city at TSM's Urban Health Training Centre (UHTC), located in Krishna Nagar for the local residents. These include eye camps, dental camps, regular health check-up camps with free sample collections for testing.

## OLD-AGE HOMES

As a socially cognizant organisation, TSM called “Sevaarth Vriddha Ashram”, at Para Road and Rajajipuram has taken an initiative of adopting two Old-Age homes in Lucknow city. With active participation by our team of Clinicians, Nurses and Support Staff from the hospital, we provide regular free health check-ups in these old-age homes, and also free treatment in our hospital for the elderly.
